

Bonuses, Continuity, and Jackpot System For Live Electronic Gaming Tables

Presented by

Dek
The game just got better!

AGENDA

- Overview
- The Platform and Associated Products
- Bonuses at Gaming Tables & ROI
- Patented Bonus Features
- Administration, Accounting, and Data

WHAT IS G3?

- G3 is a server-based system for bonuses, jackpots, and loyalty.
- Some of its key features include:
 - Mystery Bonus (random & progressive)
 - Jackpot Management (random & progressive)
 - Real Link

The Gaming Table Solution

Our Bonus and Jackpot System adapts to any gaming table at any casino and can be retrofitted on-site!

Supported Games:

- **Three Card Poker**
- **Four Card Poker**
- **Pai Gow**
- **Let it Ride**
- **Ultimate Texas Hold 'Em**
- **Caribbean Stud**
- **Baccarat**
- **Tropical Stud**
- **Blackjack**
- **Texas Hold'Em Bonus**
- **y otros juegos**

Basic Components

- **Personal Bet Manager**

- Credit use
- Multi-bet capability
- Alternate bet for Player and Dealer
- Bets can auto-renew to speed up gameplay

- **Dealer Control Console**

- Easy to use
- Manages all aspects of the game
- Secure e-Key electronic access

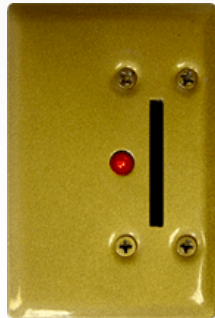

- **Multimedia LCD Base System**

- Advertising
- Casino Promotions
- Television Programming

A Major Leap in Bonuses

- **DEK's patented technology and features replace old systems and introduce key new controllers to drive profits:**
 - Multi-alternate betting (multiple credits and flexible denominations)
 - Alternate betting on the Dealer's hand
 - Mystery Bonus & Random Prizes
 - Progressive, Multi-level Random Jackpots
 - Data, statistics, dealer performance tracking, accounting
 - Global Multimedia, Connectivity, and Bonus Solutions

**First-Generation
Alternate Bet:**
Slot machines
PGIC

Third Generation Alternate Bet:
DEK's Multiple Bet Manager

Personal Bet Manager

- **Multi Chip/Credit Betting**

- Allows players to bet multiple chips/credits on alternate bets. Winnings are paid directly to the credit bank.
- Automatically multiplies alternate bets based on the number of bets placed.

- **Dealer's Hand Betting**

- Players can bet on the Dealer's hand.

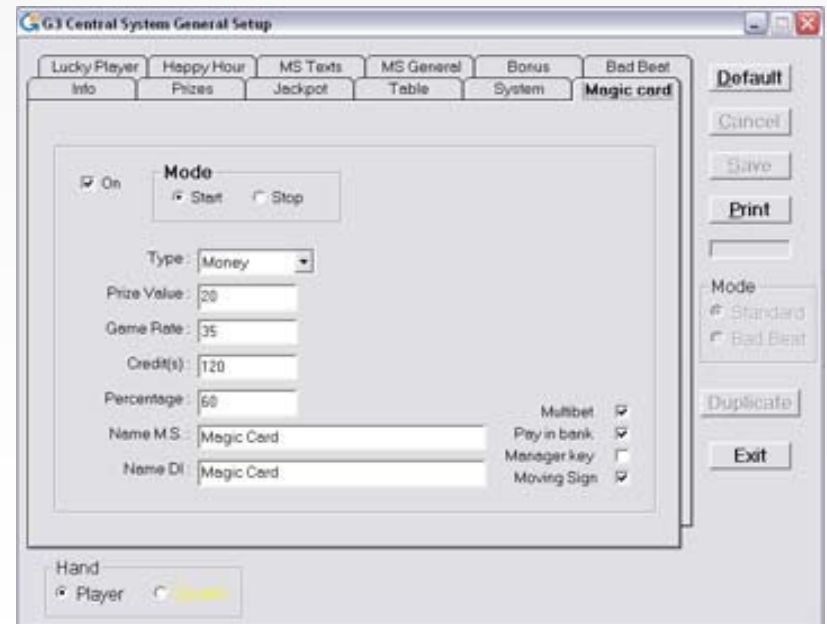

- **Streamlined Design and Appearance**

Mystery Prize

The MAGIC CARD

- A randomly selected card appears on the screen.
- If you have the Magic Card and have placed an alternate bet, you win.

Automated Random Incentives

THE LUCKY PLAYER

- A randomly selected player position wins.
- If you are sitting in the selected position and have placed an alternate bet, you win the random prize.

Lucky Player
Screen

Automated Random Incentives

THE LUCKY DEALER

- A "Lucky Dealer" message appears on screen.
- If you have placed an alternate bet, you win.
- All players are paid proportionally to the number of credits they bet.
- More than one player can win when Lucky Dealer appears.
- If the dealer hits the Progressive Jackpot, player bets are paid out according to casino rules.

PLAYER	AMOUNT	BET MULTIPLIER	TOTAL WIN
1	\$20.00	x3	\$60.00
2	\$20.00	x2	\$40.00
3	\$20.00	x2	\$40.00
6	\$20.00	x1	\$20.00
7	\$20.00	x5	\$100.00

The Lucky Dealer mystery prize pays players proportionally to the number of credits they bet on the dealer's hand.

Attraction Incentives

FREE PLAY!

Why wait for players to start betting? Bring them straight into the action by offering free credits to their banks at any G3-enabled table.

This can be used for special promotions like “2-for-1” credits during Happy Hour, special events, or slow periods to boost engagement.

Encouraging alternate betting keeps players at the tables longer by motivating them to use the Free Credits shown in their credit banks.

Incentive Prizes

THE CASINO BONUS

(Automatic Credit Redemption)

- The Casino Bonus is an automated "bounce-back" promotion based on player participation.
- Can be a low or high-frequency payout: e.g., awarding one free credit for every 10 credits wagered.
- Reinforces the idea that the more you play, the more free credits you earn, enhancing the overall gaming experience.
- Can also randomly grant minimum payouts to encourage learning and continued use of alternate bets.

Connectivity Solutions, WAP & TCP/IP

- **Mega Jackpots**

- The G3 Game Server (TCP/IP) can link all your tables to create centralized jackpots.
- Tables can connect within a single property, across multiple casinos, or even in different locations.
- Connectivity can be wired or wireless.

All connected to the Super Jackpot wirelessly!

LCD-Based Multimedia

- **Television Programming, Advertising, and Promotions**

The system can display table limits, pay tables, event schedules, ads, promotions, and visual/sound effects.

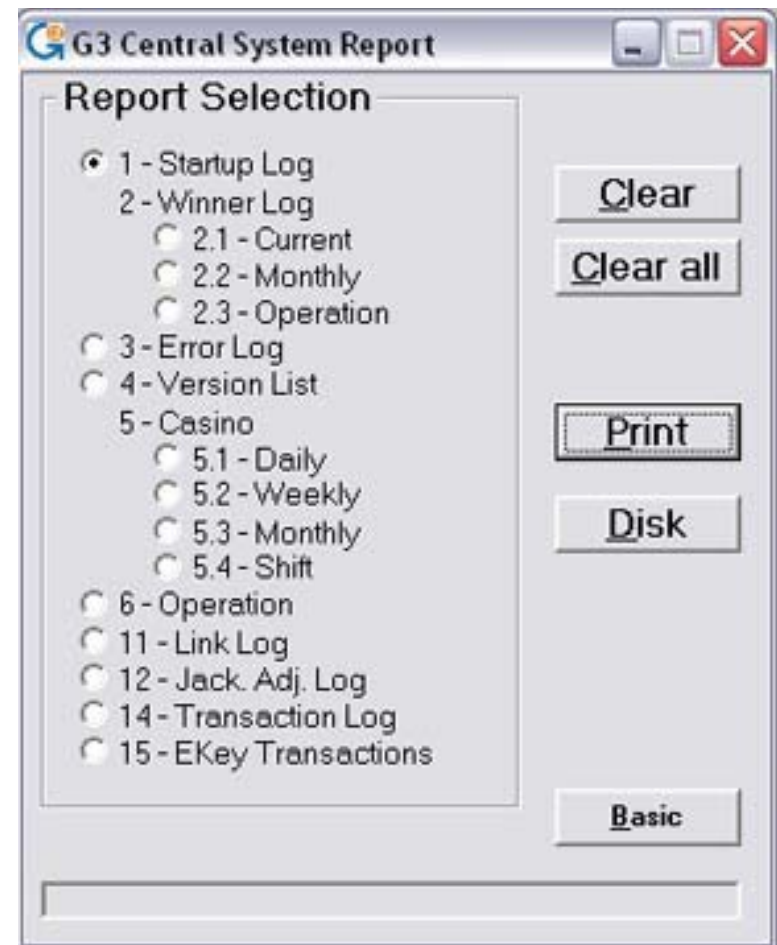

ADMINISTRATION

Extensive Reports

Generates a wide range of financial and statistical reports on alternate betting performance (daily, weekly, and monthly):

- Alternate Bets
- Games Played
- Amounts Bet
- Amounts Won
- Average Bet
- Credit Bank Operations
- Net System Results

CONCLUSION

- **Immediate ROI**
Due to multi-betting, the system quickly pays for itself, increasing your bottom line fast.
- **Boost in Coin-in**
G3 boosts coin-in through multi-betting, Dealer Bets, Continuity Bonuses, and Mystery Bonuses.
Players using our Personal Bet Managers often place multiple bets (2, 3, 4+ credits at a time).
- **One Platform, Many Games**
G3 adapts to multiple table games: Three/Four Card Poker, Caribbean Stud, Baccarat, Let It Ride, Fortune Pai Gow Poker, Texas Hold'Em Bonus Edition, and more.
- **Multi-Level Multimedia Jackpot and Networking**
Attracts more players with bigger jackpots. Connect tables, conglomerates, or even different casinos to create massive jackpots and higher excitement levels.
